

- APPLICABLE TO:
- ☒ Company Admin

☐ Manager

☐ Instructor

☐ Learner

☒ GlobalLearn

Custom data input fields can be added manually for use in the course creation process. These are called “course fields”.

1

Log in to Global Learn and navigate to the **Company Dashboard**.

Select **Add Course Fields**.

2

Click on the **Create a Additional Course Field** dropdown box. Select the type of field you intend to add.

3

Fill in all required fields and optional settings and click **Save changes**.

1

Add Course Fields

Additional Course Fields in Global Learn enable you to add additional fields with extra information to the course page. By default, there are standard many Course fields such as Full Name, Short Name, Course ID, Course Type, but new fields may be added as Additional Course Fields.

How to Add Fields to a Course

GlobalLearn v2.5

4 You'll find the additional field you created in the list of additional fields for the company.

5 To include the additional field(s) in a course, navigate to **Course Management**. Use **Edit** or **Add Course**, as appropriate.

6 In the **Create a Course** dialog box, Additional Fields are available in the bottom section.
